METHODS AND STANDARDS FOR DETERMINING PAYMENT RATES FOR SERVICES PROVIDED BY INTERMEDIATE CARE FACILITIES FOR THE MENTALLY RETARDED (ICFs/MR) WHICH ARE NOT STATE-OWNED

SECTION 1.000 INTRODUCTION.

Section 1.010 **General purpose.** The purpose of Minnesota's methods and standards for determining medical assistance payment rates for ICFs/MR that are not state-owned is to provide for rates in conformity with applicable state and federal laws, regulations and quality and safety standards. Minnesota has in place a public process which complies with the requirements of Section 1902(a)(13)(A) of the Social Security Act. In determining the rates, the Department of Human Services takes into account the provider's historical costs, the size of the facility, and other factors.

Facilities participating in the Minnesota Medical Assistance Program are paid by a prospective rate-setting methodology. This methodology, established in Minnesota statutes and rules, is described in this attachment. This attachment describes policies concerning cost classification and allocation procedures, both allowable and nonallowable costs, reporting requirements, cost allocation and classification principles, appeal procedures, and rate-setting procedures for newly established facilities or approved facility Class A to Class B bed conversions.

Section 1.020 **Overview.** A very brief description of the overall rate setting mechanism will be helpful. Cost reports are submitted annually by ICFs/MR for the common reporting year of January 1 to December 31. The common rate year of October 1 to September 30, lags the report year by nine months. The submitted cost reports are desk audited to determine allowable operating costs and subject to various cost category limitations. Similarly, property costs including depreciation, interest, and lease expenses are reviewed, and subjected to cost limitations such as investment limits, debt limits, interest rate limits, and down payment requirements. The property rate may also be adjusted for certain life safety code changes. Payment rates are set for the rate year of October 1 to September 30 following the cost reporting year by adjusting per diem costs for inflation. These payment rates are subject to appeal, and may be adjusted retrospectively for field audit and appeal resolutions.

The total payment rate for ICFs/MR is the sum of the total operating cost payment rate, the special operating cost payment rate, and the property related payment rate. The rate may also include a program operating cost adjusted for recognized deficiencies or need determinations resulting from governmental programmatic reviews. These three rates can be summarized as follows:
